

- Then there is the track chunk
 - chunk of MZDZ with song data

Length	Type	Desc	Value
4	char[4]	Chunk ID	"MTTrk"
4	dword	Chunk Size	variable X
3C	Track Event Data		

- Track event data
 - Stream of MZDZ events that describe information about the sequence and how it's played

$\langle \text{MTTrk event} \rangle = \langle \text{delta-time} \rangle \langle \text{event} \rangle$

- events unaffected by time have a delta time of 0 and are placed first

- First event specifies the time signature

Delta Time	Event
0x 00	FF 5B 04 04 02 1F 00

- Second event sets tempo

Delta Time	Event	MPQN
0x 00	FF 51 03	nn nn nn

- 3 bytes to specify ~~the~~ microseconds per quarter note
 - MPQN = 60,000,000, Beats Per Minute
